General comments:

Naracoorte Lucindale Council has established a successful livestock exchange focusing on providing a safe, environmentally sensitive facility with a strong focus on animal welfare. The facility has strong buyer support delivering excellent results for vendors. The Naracoorte Combined Agents work collaboratively to achieve the best results for vendors. The quality of livestock and their management through the sale process, minimising stress by providing comfortable yards ensures they are fit to travel after sale. The yards are environmentally sustainable through capture of rainwater for reuse, and a state of the art waste water treatment plant treating water for reuse.
